Hume, CA 93628

Dear SMVI Renters:

During your stay at our cabin this summer we request that you observe the following guidelines in order to conserve use of water and to protect our leach line (septic) system. Since we host large groups of people such as yours, we hope you will understand and abide by this request. There could be a significant negative impact on our guests as a result of water overuse, which could over-burden the leach line, causing back up of the plumbing. For the same reason, we do not offer laundry room usage.

Guidelines:

- Take short showers.
- Avoid unnecessary toilet flushing to decrease leach line burden.
- Avoid unnecessarily running water in the bathroom and kitchen sinks.
- If using the dishwasher, be sure it is full (avoid overfilling) before running it.
- Try to conserve on water volume use when bathing small children.

The Richman Family and Hume Lake Christian Camps greatly appreciate your cooperation with these requests, and we thank you ahead of time for observing the above guidelines. Please assure that all members of your group are aware of these guidelines. Have a peaceful and blessed visit at Hume Lake Christian Camps.

Kathy Richman and Family
